

Warning: Do not tie a pacifier around a child's neck as it presents a strangulation danger.

Smilo pacifier recommendations:

- Prior to first use sterilize the pacifier by boiling for five minutes.
- After boiling allow the pacifier to cool for an additional five minutes.
- Inspect the pacifiers condition before and after each use.
- Replace a pacifier if any signs of wear or damage are shown.
- To clean, we recommend rinsing in warm water and household detergent, boiling in hot water for 2-3 minutes or cleaning in your dishwasher top tray at 140°F.
- Made of high-quality BPA-free materials.

Advertencia: No amarre el chupete alrededor del cuello del niño, ya que presenta un peligro de estrangulación.

Recomendaciones para el chupete Smilo.

- Antes del primer uso, esterilice el chupete hirviéndolo durante cinco minutos.
- Después de hervirlo, espere cinco minutos más hasta que el chupete se enfríe.
- Inspeccione la condición del chupete antes y después de cada uso.
- Reemplace el chupete si muestra signos de desgaste o daño.
- Para su limpieza, recomendamos enjuagarlo con agua tibia y detergente doméstico, hervirlo en agua caliente durante 2-3 minutos o lavarlo en la bandeja superior del lavavajillas a 140°F.
- Hecho de materiales de alta calidad sin BPA.

Newborn
0-2 months

Stage 1
0-3 months

Stage 2
3-9 months

Stage 3
9+ months

- Orthodontic, supportive shape
- Breathable shield
- Medical-grade, BPA-free materials
- Dishwasher safe

Polypropylene Ring

Medical-Grade Silicone Baglet:
After washing or sterilizing, you may see tiny droplets of water inside the baglet. This is normal, the droplets will evaporate away.

Tritan BPA-free plastic Shield
Lightweight and breathable.

Tritan BPA-free plastic Knob
Leave a glow-in-the-dark pacifier in the light to charge and the knob can glow for several hours.

Glow-in-the-dark pacifiers are intended for nighttime use and for safety, these pacifiers have no ring. This avoids anything being attached to the pacifier when the infant is unattended.
